

VIRTUAL ONLINE WORKSHOP

ENDOCRINE DISRUPTORS: FROM THEORY TO PRACTICE

NOVEMBER 18, 2020 (9.30H - 13.00H)

TOP SPEAKERS

MARTINA DUFT

SENIOR EXPERT REGULATORY ECOTOXICOLOGY,
KNOELL GERMANY GMBH

DANIELA FRUTH

REGULATORY TOXICOLOGIST,
KNOELL GERMANY GMBH

DANIELA ROMANO

REGULATORY AFFAIR MANAGER FOR BIOCIDAL
PRODUCTS, EUROFINS BIOLAB

ORGANIZATION AND CONTACT:

EUROFINS BIOLAB SRL

VIA BRUNO BUOZZI 2

20055 VIMODRONE (MI)

E-MAIL: FORMAZIONEFARMA@EUROFINS.COM

ENDOCRINE DISRUPTORS: FROM THEORY TO PRACTICE

Introduction

ED properties of Biocidal Products have become a hot topic since 07 June 2018, because evaluating competent authorities assess the potential ED properties of all biocidal products.

The ECHA/EFSA guidance for the identification of endocrine disruptors, implies rising standards and challenging requirements for the assessment of all substances. The competent authorities will also take into consideration the ED properties of substances and products for procedures that are still under evaluation. This highly complex and rigorous approach impacts all aspects associated to data requirements, testing and assessment strategies.

Applicants should:

- Review the active substances in the light of the scientific ED criteria and the new EU ED Guidance
- Be prepared to provide more information on the possible ED properties of active substances in their application
- Consult the national authority responsible for the evaluation of active substances before testing

These criteria will apply not only to active substances but also to co-formulants, which are especially critical within ED assessment framework.

This virtual workshop aims to provide a full understanding and in-depth insight into the new EU Endocrine Disruptor criteria, and the recent ECHA/EFSA ED Guidance. Key industry experts will share valid and sound knowledge for identifying endocrine disrupting chemicals in the biocides area.

Who should attend?

This virtual workshop is relevant to risk assessors, regulatory managers and (eco-)toxicologists engaged with the assessment of biocidal active substances/products. By attending you will be equipped with the necessary know-how to address the highly complex and challenging assessment of the potential ED properties of biocidal products.

The official Workshop language will be English 

ENDOCRINE DISRUPTORS: FROM THEORY TO PRACTICE

Agenda

9:30 Endocrine Disruptors - definition and criteria

Martina Duft - Senior Expert Regulatory Ecotoxicology, knoell Germany GmbH

Daniela Fruth - Regulatory Toxicologist, knoell Germany GmbH

10:00 Main requirements of new EU ED Guidance

Martina Duft - Senior Expert Regulatory Ecotoxicology, knoell Germany GmbH

Daniela Fruth - Regulatory Toxicologist, knoell Germany GmbH

10:30 Gathering and assembly of data

Martina Duft - Senior Expert Regulatory Ecotoxicology, knoell Germany GmbH

Daniela Fruth - Regulatory Toxicologist, knoell Germany GmbH

11:00 Break

11:15 Assembly of the lines of evidence, evaluation of completeness

Martina Duft - Senior Expert Regulatory Ecotoxicology, knoell Germany GmbH

Daniela Fruth - Regulatory Toxicologist, knoell Germany GmbH

11:45 Regulatory consequences for applicants and implications on dossier preparation

Martina Duft - Senior Expert Regulatory Ecotoxicology, knoell Germany GmbH

Daniela Fruth - Regulatory Toxicologist, knoell Germany GmbH

12:15 Specific case study on a biocidal product

Daniela Romano -Regulatory Affair Manager for Biocidal Products, Eurofins Biolab

12:45 - 13:00 Final Q&A

YOUR INDUSTRY EXPERT

Martina Duft
Senior Expert Regulatory
Ecotoxicology, knoell Germany GmbH

Dr Martina Duft is senior expert regulatory ecotoxicologist at knoell Germany GmbH. She studied biology at the Ludwig Maximilian University Munich and is holding a PhD in ecotoxicology from the JW Goethe University Frankfurt. After several years in ED related research, she has worked for >15 years in various regulatory sectors with a focus on ecotoxicology and regulatory affairs. She is coordinator of the knoell ED expert team and key contact for the topic endocrine disruptors.

Daniela Fruth
Regulatory Toxicologist,
knoell Germany GmbH

She studied food chemistry at the Technical University of Kaiserslautern and is holding a Ph. D. in Pharmacy from the Johannes Gutenberg-University Mainz. After her PhD period spent in the chemical industry focussing on genotoxicity and in vitro metabolism, she joined knoell in 2016 and has since then worked in the biocide sector with a focus on human safety, exposure and risk assessment as well as regulatory affairs. She is part of the knoell ED expert team and is involved in the assessment of active substances (biocides and crop protection) and co-formulants with respect to endocrine disrupting properties.

Daniela Romano,
Regulatory Affair Manager Biocidal
Products, Eurofins Biolab Italy

After her PhD in Biophysics and a Post Doc position in medical research, Daniela has been working with Eurofins, mainly on Biocides, since 2003. She was first in charge of stability studies and then the management of the Chemistry laboratory. She managed projects aiming towards Biocidal Products authorisation for several years and is now also involved in the risk assessment procedures. She has sound experience with a large variety of biocidal products.

REGISTRATION FORM

Title, First name, Second name:

Company:

Department:

Company address:

Bill-to-address (if different):

Phone/Mobile number:

E-mail:

Important: Indicate your company's VAT ID:

Early bird registration fee valid until Oct. 18, 2020:

110€ + *22% VAT

Including online attendance and slides in PDF format. Workshop recording not included.

150 + *22% VAT

Including online attendance and slides in PDF format and workshop recording that will be available for one month.

Full registration fee valid after Oct.18, 2020:

150€ + *22% VAT

Including online attendance and slides in PDF format. Workshop recording not included.

190€ + *22% VAT

Including online attendance and slides in PDF format and workshop recording that will be available for one month.

*Note: Additional 22% Italian VAT will be applicable to Italian Companies only.

Bank details for payment through bank transfer:

UNICREDIT SPA Agenzia Segrate - Milano

Terms and Conditions

The organizer will confirm your participation after receiving the signed registration form. The organizer requires the full payment of the registration fee in advance through bank transfer. Only after we have received your payment, you are entitled to attend the workshop. If you cannot attend the workshop you have two options:

1. We are happy to welcome a substitute colleague at any time
2. If you have to cancel entirely we must charge the following processing fees:
 - until 1 week prior to the event 50% of the registration fee will be charged;
 - less than 1 week prior to the workshop full registration fee will be charged.

Standard registration fee includes online attendance and workshop's slides in PDF format. You may choose to upgrade and purchase workshop's recording that will be valid for one month within Go ToMeeting platform.

Eurofins Biolab reserves the right to cancel/alter the programme, the speakers or the date. If the event must be cancelled, registrants will be notified and will receive a full refund of fees paid. Your data will be processed in accordance with EU regulation no. 679 of 27 April 2016 and Legislative Decree 30 June 2003, n. 196. By sending this form, you confirm that you have read and accepted the Terms and Conditions.

THIS WORKSHOP WILL BE HOSTED THROUGH GO TO WEBINAR PLATFORM. DELEGATES WILL RECEIVE ACCESS DETAILS PRIOR THE EVENT.
